## Professional Summary

Enthusiastic software engineer entering the field proficient in full stack development and ready to contribute to impactful projects with a fresh perspective and strong technical foundation.

## Personal Projects

### Learners (Front-End developer)

Project link: <https://learner-one.vercel.app>

- Contributed as the frontend developer for the “Learners” project, a web-based application designed to streamline communication between teachers and students
- Utilized React.js to develop the user interface, enabling seamless interaction and intuitive navigation for users
- Responsibilities to take tests.
- Developed user interfaces using React.js for teachers to create quizzes and for students
- Integrated React components to interact with the backend API, enabling real-time data retrieval and score recording
- Implement test link generation for teachers to share with students, facilitating easy quiz access.
- Collaborated with the backend team to ensure seamless integration of frontend components, contributing to project success.

### Shoppers

- Designed and implemented a web application to showcase sellers’ goods with real-time pricing and quantity information.
- Implemented real-time features for pricing and quantity updates, enhancing user experience. Utilized Python-Flask to establish a secure and efficient server-side architecture leveraged, HTML, CSS, and JavaScript for a sleek and intuitive frontend design
- Successfully created a dynamic web application that streamlined real-time information and provided a secure payment method, contributing to an improved and efficient selling experience.

## Skills

**BACKEND DEVELOPMENT:** Python, C, node.js, Express.js

**FRONTEND DEVELOPMENT:**

React.js, Redux, JavaScript, HTML, CSS **DATABASE:** MySQL, MongoDB

## Education

12/2023

**Alx\_africa**

Nairobi, Kenya

Certificate Full stack Software

Engineering/Frontend Developer

12/2021

**University of Lagos**

Nigeria

B.A Philosophy

## Experience

### Frontend Developer Intern, TaolTech - May, 2024

Developed and Maintained user interfaces using REACT, and REDUX.

Collaborated with backend developers to integrate APIs and improve website functionality.

Implemented responsive design principles to enhance user experience across devices.

### Full-stack Developer, BigFix Integrated Technologies - January 2025

Full Stack Developer (Odoo & Python) – Develop and customize ERP solutions for businesses using Odoo, handling both backend (Python, PostgreSQL) and frontend (JavaScript, XML, HTML, CSS).

ERP Development & Customization – Implement custom modules, workflows, and integrations to enhance business processes within Odoo’s framework.

Full-Stack Web Development – Build and maintain scalable applications, ensuring seamless interaction between backend logic and frontend user interfaces.
