EXPERIENCE

Frontend Developer – Fastrasuite (ERP System), Company Project (Bigfix Integrated Technology)

Jan 2025 – Current | Surulere, Nigeria

- Contributed as Frontend Developer for an ERP platform managing purchases, invoicing, and approvals.
- Designed modular UI components for purchase and invoicing workflows.
- Built multi-level approval flows integrated with backend APIs.
- Combined CSS and TailwindCSS for scalable, consistent UI design.
- Utilized React's Context API (useContext) for global state and role-based access.

Tech stack: React, Next.js, CSS, TailwindCSS, Context API

Frontend Developer – Shoppers (E-commerce Website), Freelance

Jun 2025 – Aug 2025 | Lagos, Nigeria

- Led frontend development of vendor and customer interfaces using React (Vite) and CSS.
- Integrated Paystack multisplit payments to distribute funds directly to vendors.
- Implemented two-factor authentication, account management, and real-time notifications.
- Added dark/light mode toggle for improved user experience.
- Made API calls for product management, vendor operations, and order tracking while managing state with Zustand.

Tech stack: React, Vite, CSS, Zustand, Redux, Paystack API

Frontend Developer – Client Portfolio Websites, Freelance

Jun 2025 – Jun 2025 | Surulere, Lagos, Nigeria

- Constructed modern portfolio websites aligning with client branding.
- Built one portfolio with React + Vite + TailwindCSS ensuring responsive layouts and a clean UI/UX.
- Created another portfolio with Next.js + CSS focusing on performance and SEO.
- Delivered fast loading, SEO-optimized sites for desktop and mobile platforms.

Tech stack: React, Vite, TailwindCSS, Next.js, CSS

EDUCATION

Certificate in Software Engineering (Frontend Concentration), ALX Holberton School

Jan 2023 – Dec 2023 | Lagos, Nigeria

Bachelor of Arts in Philosophy, University of Lagos

PROJECTS

Learners – Online Exam Platform (Personal Project)

Feb 2024 – Apr 2024 | Agege, Nigeria

- Led frontend development for an online exam platform enabling teachers to set tests and students to take them remotely.
- Built teacher dashboards to create timed exams and generate unique student access codes.
- Implemented instant scoring and results display after submissions.
- Enabled teachers to reuse community question banks to speed up exam creation.
- Consumed backend APIs for exam creation, submissions, and results while managing state with Redux.

Tech stack: React, Vite, CSS, Redux
