- CSS
- TailwindCSS
- Redux
- Zustand
- Context API
- REST API Integration
- Git
- Responsive Design
- Dark/Light Mode
- Authentication (2FA)
- Performance Optimization
- UI/UX Collaboration
- Component-driven Architecture

EXPERIENCE

Frontend Developer, Company Project (Bigfix Integrated Technology)

Jan 2025 – Current | Surulere, Nigeria
- Contributed to an ERP platform (Fastrasuite) for managing purchases, invoicing, vendors, and approvals.
- Designed modular UI components for purchase and invoicing workflows.
- Built multi-level approval flows and integrated them with backend APIs.
- Combined CSS and TailwindCSS for scalable, consistent UI design.
- Used React's Context API (useContext) for global state and role-based access.
Tech stack: React, Next.js, CSS, TailwindCSS, Context API

Frontend Developer, Freelance Project

Jun 2025 – Aug 2025 | Ikeja, Nigeria
- Built a scalable e-commerce platform where vendors can register, manage products, and track orders.
- Developed responsive vendor and customer interfaces with React + Vite + CSS.
- Integrated Paystack multisplit payments to distribute funds directly to vendors.
- Implemented two-factor authentication, account management, and real-time email + in-app notifications.
- Added dark/light mode toggle for improved user experience.
- Managed application state with Zustand.
Tech stack: React, Vite, CSS, Zustand, Paystack API

Frontend Developer, Freelance Work

Jun 2025 – Jun 2025 | Surulere, Lagos, Nigeria
• Constructed modern portfolio websites aligning with client branding.
• Built one portfolio with React + Vite + TailwindCSS ensuring responsive layouts and a clean UI/UX.
• Created another portfolio with Next.js + CSS focusing on performance and SEO.
• Delivered fast loading, SEO-optimized sites for desktop and mobile platforms.
Tech stack: React, Vite, TailwindCSS, Next.js, CSS

PROJECTS

Learners – Online Exam Platform (Personal Project)

Feb 2024 – Apr 2024 | Agege, Nigeria
• Built an online exam platform enabling teachers to set tests and students to take them remotely.
• Developed teacher dashboards to create timed exams and generate unique student access codes.
• Implemented instant scoring and results display after submissions.
• Enabled teachers to reuse community question banks to speed up exam creation.
• Managed exam state with Redux for predictability.
Tech stack: React, Vite, CSS, Redux

EDUCATION

Certificate in Software Engineering – Frontend Concentration, ALX Holberton School | Dec 2023
Bachelor of Arts, Philosophy, University of Lagos | Jan 2021
